Personal Interview: Ferron , Utah April 4,95

I choose to interview my mother because I knew she could tell me some really good storys about events in our lives. My mother is proud of all her children and every moment of joy and misery we bring into her life.

I remember my mom telling us how me & mike (my brother) were always trying to flush roberta (my little sister) down the toilet. First we stuck her head in because we thought she'd go down faster, but for some reason she just wouldn't go down me & mike had become very frustrated , we almost drowned her that way.

Well since that didn't work we tried to stick her butt in then flush her, but all that went down were her socks & her diaper . Me & Mike were determined to flush her down the toilet no matter what it took. We had been in the bathroom for hours now I think my mom was beginning to wonder what was going on.

Mom came in and caught us wet handed, bert was in the process of being flushed, boy was mom red If i didn't know ant better I'd say she was mad. Mike grab bert and tried to pretend he was given her a bath. I think mom was really mad at us because the day before we tried to cook her!!!!!!
