Carter English 3rd

Curtis Chad. 23 May 1973. Salt Lake City, Utah. Personal Interview. 8 April 1995. Orangeville, Utah.

Chad is my brother that's mostly why I picked him to write about. This was a really scary experience for our family how would you like to get bitten by a mouton lion?

It was a colder day than acyl when wade called me to come easel for a man from new york. that had come down to get a lion. I went up the canon and left my truck with them. then I set of on foot. I guess I better explain to you a little what you have to do in isle to trap a lion. well you have to walk motions some times it takes a day some times it takes a week. You have to jump cliffs climb cliffs walk through 10 feet of snow. It takes all you've got. When I found the lion I set the dogs lose they tree the lion then I call Wade and he brings up the guy. when they get up we shoot the lion the let it run we catch it again then we kill it. But this particular time it back fired. When we shoot the lion it came out of the tree and started ripping up the dog. Chad didn't have a gun but the people that have guns were not doing anything."I think they were in shock" Chad told me so he decided to do something about it. He went over to the lion and started pulling the dogs off. Needless to say the lion wasn't to happy about that, and it turned around and bit him right underneath the knee cap. Just think how would you feel if a lion lacked on to your leg and would not let go! I don't think you would be exactly thrilled! They pride the lion off and rushed Chad to the hospital.Chad is doing fine now but he has scares to this day.
