Me and my dad are really close. Thats why I choose to do this on my dad. At the time he just barley in collage.

Me and my buddy Michale Johnson were out of collage on the weekend . So they went out to Joes Valley to shoot bows. We went to upper indian creek . When we saw a girl coverd from head to toe with mud mixed with snow. She saw us and screamed "Im so glad to see you I never thought Id see anyone".Then when we got her calmed down she told us that her grandma, sister and baby were trapped in a car up the moutain. We got her in the car wrapped a blanket around her and headed off to look for the car. We went as far as we could until we couldnt even see the road. Then we got out and started walking to look for the car. We haven't been walking very long when we came across a girl lieing in the snow half dead.We took her back to the truck then we headed out looking for the car.When we found the car it was in a snow bank.The snow was so high that we had to break the windows to get them out. We got them back to the truck started a fire and headed off to tell the officials what we had found.
