

## **Blair Cook**

I was born in Huntington and lived there most of my life. My parents are Phineas and Deane Cook. I have four siblings, three brothers and one sister. After high school graduation I attended Carbon College. I was drafted into the Army and served in Viet Nam. When I returned, I married Terri Birch. We made our home on our farm west of Huntington.

At that time, I began my coal mining career. We have four children, three daughters and one son. My wife and oldest daughter are deceased. A few years after I retired from the coal mine, I moved to Sandy. I met Pat, We enjoyed each other's company and were married a few years later. At the present time we are in Sandy and enjoying our senior years. I still enjoy keeping in touch with friends from school.
