

Michael Brent Green

After higher school graduation I continued my education at College of Eastern Utah and the University of Utah. Married Ellen Humphrey and we had two children.

Moved to Salt Lake and started working for a door manufacturer company and was employed by a real estate company. In the early 70's I started my own construction company and continued building homes and small commercial for 30 years. During that time, I was divorced and later met Sandra Swensen. She had two girls, and we raised our family together. We have been very involved in outdoor sports throughout our lives. Member of snowmobile clubs and active in the Utah State Snowmobile Association. Some of our outdoor activities include snowmobiling, white water rafting, parasailing, scuba diving and sky diving, golf and bowling. I enjoyed hunting and fishing, and we made several trips to Alaska. Sandra and I worked very hard in our careers which gave us the opportunity to travel the world. We both had the desire to retire in St. George and did so in 2015 where we presently reside. We are active in the St. George area and are involved in the Tri-State ATV Club and the UT/AZ/ATV Club. Both of us enjoy golfing and bowling in sunny St. George.
