It's hard to believe that 60 years have flown by since we all graduated as the 2nd Class of Emery High School. Since that date, I went on a Church Mission to the Gulf States, served 3 years in the US Army (2 in Germany), married, graduated from Utah State University, and moved to the State of Washington. My wife is Calleen (Eden) Hall from Cleveland, Utah – Emery High class of 1965. We ended up with 8 children, 6 sons, and 2 daughters. They in turn have blessed us with 40 grandchildren, and 2 great grandchildren. When we have our family reunions, I sit and marvel about how many descendants we've been blessed with. We love them all and feel loved in return. So far, we are both fairly healthy with the exception of my bad knee which wants to be replaced someday. When we moved to Washington in 1978, we bought a home and are still living in it today. Our children were raised here, and we still have 2 of them with their families living near us. One son and his wife live in Hawaii, so we are obligated to visit them as often as we can. I've changed jobs several times in my career prior to retirement, and we still own a small company leasing radio and cell phone tower space which augments our retirement. We've kept active in the Church. We continue working in the Columbia River Temple and have been there for 17½ years. In addition, we work in the Temple office and have done so for about 8 years. We served several years as the Director of a Church Employment Center, and 6 months as Ordinance workers in the Nauvoo Temple. We wish we could live closer to you all but appreciate those of you who organize these Class reunions. We especially appreciate Kent and Brenda Powell, and the contact we have with them. They have helped up through some very trying times. We are grateful for being raised in Emery County and the values and experiences we gained from doing so. We have great memories of Emery High School and the great times we had there. It has been a great foundation that has blessed our lives and deepened our faith. Lynn F.
