

## **David Hansen**

After I graduated from BYU Provo, I spent over 8 years on active duty in the US Army. Part of that time was in Frankfurt, Germany

I have worked as a research horticulturist for Universal Foods.

Now, I live in Modesto, California. I manage a community garden for our stake. I am assigned as the executive secretary for our Spanish speaking ward.

Another reason is that the Modesto temple is under construction and is only 6 miles from where I live.

That will save me from having to travel 80 miles to the Oakland temple.
